Deck Caddy™
Installation Instructions
Patent Pending Design

- 1.) Slide your Deck Caddy onto your deck railing and pull towards you until the fixed brackets are in place as shown in the diagram.
- 2.) Simply reach in between your railing spindles and tighten down both clamping knobs firmly.
- 3.) Once secured then push forward your sliding bracket towards your deck railing. When in place (see diagram) then insert the safety screw into the pre installed threaded insert and tighten down firmly.
- 4.) After steps 2 and 3 are completed your Deck Caddy should be completely secured to both sides of your deck railing. Simply reverse the process to remove.

Parts provided to complete the installation include :
(2) clamping knobs and (1) safety screw.

*Your Deck Caddy is recommended for first floor decks (ground level) only

*Always store indoors in a dry area and the recommended weight limit is not to exceed 15 lbs.
